SUMMARY

4+ years taking production web apps from architecture to deployment and long-term maintenance. Strong in layered/modular system design, SOLID, relational data modelling, and high-performance REST APIs.

EXPERIENCE

Software Engineer / Lead Developer · Vista Systech Limited

Aug 2024 – Present

- Lead architecture and delivery across e-commerce, POS and service-management
- Enforce SOLID and design patterns
- Lead the team: sprints, code reviews, mentoring
- Own deployment, production troubleshooting, query/cache tuning

Jr. Software Engineer · Service Engine Ltd.

Jun 2022 – Jul 2024

- Full-stack JS/PHP apps
- Elasticsearch for large-scale search
- Redis caching to cut DB load and API latency
- Unit + integration tests

PROJECTS

Asthafy · Multi-vendor e-commerce platform

asthafy.com

[Express.js](#) · [Next.js](#) · [PostgreSQL](#) · [Redis](#)

- Layered architecture (controller → service → repository); the Repository pattern decouples business logic from the ORM
- Shopify & WordPress integrations as Adapters behind a common interface, created via a Factory (open/closed)
- Normalised multi-vendor schema, indexed hot paths, Redis cache with targeted invalidation

Asthafy POS · SaaS point of sale

pos.asthafy.com

[Next.js](#) · [Express.js](#) · [PostgreSQL](#)

- Independent modules: sales, inventory, payments, reporting
- ACID transactions + idempotent checkout — no double-charging or stock drift across concurrent terminals
- Shares domain + auth layer with the storefront via dependency inversion

Lumiere Solutions Portal · Workflow automation for an Australian client
portal.lumieresolutions.com.au
[Laravel](#) · [MySQL](#) · [Xero API](#)

- Event-driven pipeline (Laravel queues + observers) replacing manual data entry; 30+ daily users
- Fault-tolerant Xero sync: token refresh, retry-with-backoff, idempotent writes
- Sole technical owner: requirements → design → RBAC → deployment → releases

SKILLS

Backend	Node.js, Express.js, Laravel, PHP, REST API design
Frontend	React, Next.js, Vue.js, Nuxt.js, TypeScript, JavaScript, HTML5, CSS3, Bootstrap
Databases	PostgreSQL, MySQL, MongoDB, Elasticsearch, Redis
Architecture	SOLID, Layered / modular, Repository, Factory, Adapter, Observer, MVC, DRY
DevOps & tools	Git, Docker, AWS, CI/CD, Agile/Scrum
Integrations	Shopify, WordPress, Xero, Payment gateways
Testing	Cypress, Playwright, Vitest

EDUCATION

B.Sc. Computer Science & Engineering American International University-Bangladesh	CGPA 3.79 / 4.00
Full Stack Web Development Codeworks Bootcamp	On-site bootcamp
